## UNIVERSITY OF NEVADA REGENTS MEETING June 2, 1956

The Board of Regents met in regular session in the President's office at the University on Saturday, June 2, 1956. The meeting was called to order by Chairman Ross at 9 A.M. Present: Regents Hardy, Thompson, Grant, Ross; Comptroller Hayden and President Stout. Regent Lombardi was detained because of emergency surgery at the hospital. Mr. Robert Poolman, University Engineer, and Dr. William R. Wood, in charge of Statewide Development Program, were present to discuss items in their areas of work.

Reporters Laxalt and Bryn Armstrong covered the meeting.

### 1. Minutes of Previous Meetings

Motion by Mr. Hardy carried unanimously that minutes of previous meetings be approved, as follows, and that the action of the Executive Committee be approved:

- a) Regular meeting of April 26 and 30, 1956
- b) Executive Committee meeting of May 16, 1956

### 2. Comptroller's Claims

Claims which had been approved by the Executive Committee were presented for approval of the Board.

Motion by Mr. Thompson carried unanimously that the claims be approved as follows:

Regents Checks, Nos. 56-179 to 56-195 inclusive for a total of \$217,314.39 for April.

State Claims, Nos. 56-131 to 56-148 inclusive for a total of \$154,279.83 for April.

Regents Checks, Nos. 56-196A to 56-219 inclusive for a total of \$246,295.42 for May.

State Claims, Nos. 56-149 to 56-168 inclusive for a total of \$171,437.05 for May.

### 3. Salary Brackets

President Stout asked for authority to take the matter of salary brackets for the year 1956-57 to the academic Deans for restudy to make a report to the Regents.

Motion by Mr. Grant carried unanimously that authority be granted, as requested.

Motion by Mr. Thompson carried unanimously that the motion be amended to have the report made to the Executive Committee.

### 4. Candidates for Degrees

President Stout presented the list of candidates for degrees which had been approved by the Dean and faculty of the College concerned, and by the Dean of the Graduate School in the case of Advanced Degrees, upon completion of required work at the end of the first semester of the current school year.

Motion by Mr. Grant carried unanimously that the candidates be approved and that they be granted the indicated degrees, as follows:

#### COLLEGE OF AGRICULTURE

Martin H. Mann	B. S. in Agric.
Warren Chester Young	B. S. in Agric.

#### COLLEGE OF ARTS AND SCIENCE

Lois Sandorf Baskerville	B. A.
Terry R. Bastian	B. S. in B. A.
Leroy Richard Bergstrom	B. A.
James A. Brennan	B. A.

- 6) Resignation of Walter H. Hesse as Assistant Professor of Agronomy and Assistant Agronomist in the Experiment Station, effective June 30, 1956 (Item 9 of College of Agriculture recommendations).
- 7) Resignation of John R. Bertrand as Professor and Dean of the College of Agriculture and Director of Resident Teaching, Experiment Station and Extension (Item 10 of College of Agriculture recommendations).

The Board adjourned as a Board of Control for the Agricultural Experiment Station and reconvened as a Board of Regents.

#### 6. Gifts

Gifts which had been received by the University were presented for acceptance as follows:

- 1) From Louis D. Gordon of Reno, 5 hardwood chairs for the

offices of the Mackay School of Mines.

- 2) From the Atomic Energy Commission, Washington, D. C., a 9-volume set of Selected Reference Material on Atomic Energy, for the University Library.
- 3) From Miss Louise Frisch of Reno, 247 volumes of Engineering books from the library of her brother, the late Edward C. Frisch, for the University Library.
- 4) From Mrs. William H. Anderson of Reno, a copy of a book, "The Philippines, Our Problem of 40 Years", written by her husband, for the University Library.
- 5) From August Holmes of Reno, a graduate of the University of Nevada, \$500 for the Library Endowment Fund.
- 6) From Kennecott Copper Corporation, \$1000 to continue its scholarship program, and a matching check of \$1000 as a grant-in-aid for the University of Nevada.
- 7) From the Li Foundation of New York, \$4000 to continue the two Li Foundation Fellowships in the Mackay School of Mines for the academic year 1956-57.
- 8) From the Woman's Relief Corps of California and Nevada, \$395.25 to bring the principal account of the Grand Army of the Republic Scholarship to \$5000, the interest of which will be used for a scholarship each year.
- 9) From the El Capitan Club of Hawthorne, Nevada, establishment of a scholarship to be known as the El Capitan Club Scholarship, to be available to a graduate of Mineral County High School, in the amount of \$1000 per year for 4 years upon the following conditions:

#### Guide for the Selection Committee

1. The recipient must have indicated traits of leadership - or clearly demonstrated initiative (not just in theory).
2. The recipient must have clearly demonstrated that he can do satisfactory work in his College studies. Do not send a student who will always be on the ragged edge, or often on probation. Don't send a genius or a grind either, unless he is an all around person.

3. Send only a student who has the character, brains and ambition to graduate from College. Do not send a student who will drop out, or get married and drop out, or who will be unable to adjust to College life and being unhappy, will drop out.
  4. Send a student who has above average intelligence.
  5. Send only a student with high ideals, good character.
  6. Do not send a student who will be over 21 years of age at high school graduation time.
  7. Send only a student who has resided in Nevada for more than 2 years.
  8. Send only a graduate of a fully accredited high school in Nevada.
  9. Do not send a student whose family could easily pay his way through the University of Nevada. These scholarships are for students who need financial help to attend College.
  10. Pick an alternate on the same basis you have principal recipient.
  11. Do not be afraid to announce that "no student now meets the specifications of the scholarships", if such is the case; for one of the quickest ways to lose these scholarships is to have them abused.
  12. Always remember, if the number of these scholarships should ever be reduced, the schools with the highest proportion of students who graduated from the University will naturally have the best chance to keep the scholarships.
- 10) From Kermit G. Gardner, B. S., University of Nevada, 1942, \$50 under the General Electric Corporate Alumnus Program whereby matching contribution will be made by General Electric Company.
- 11) From W. Scott Hill, B. S., University of Nevada, 1923, \$50 under the same General Electric Program.

12) From Moritz M. Zenoff, Publisher of Boulder City News and Henderson Home News, establishment of a scholarship to be known as The Moritz Zenoff Scholarship in Journalism, \$100 annually, upon the following conditions:

The Moritz Zenoff Scholarship in Journalism  
Department of Journalism  
University of Nevada

1. Donor: Moritz M. Zenoff, publisher, Boulder City News and Henderson Home News.
2. Sum: \$100 annually to be paid the recipient at the rate of \$50 a semester through the University of Nevada Comptroller.
3. Selection: The recipient shall be selected by the faculty of the Department of Journalism and the University of Nevada Committee on Scholarships.
4. Qualification of recipient:
  - a. Must be committed to preparing for a career in Journalism.
  - b. Must be registered in the course leading to the Bachelor of Arts Journalism degree.
  - c. Must be a Sophomore, Junior or Senior student during the year he holds the scholarship.
  - d. Must have achieved and must maintain, both in Journalism and in other courses, at least the grade average required for graduation.
  - e. Must show promise and talent in the profession of Journalism and be dedicated to it.
5. Alternate: In case the recipient fails to maintain the qualifications, the scholarship shall pass to an alternate who is qualified and who is chosen by the same method.

Motion by Mr. Grant carried unanimously that the gifts be accepted and that a note of thanks be written to each donor.

7. Bequests

President Stout made the following report:

- 1) Notice of Petition for Probate for the Will of Helen Dalton was received and forwarded to the Attorney General, who advised that there is no contest, and that the Will provides for a \$5000 scholarship at the University.
- 2) Printed copy of the Will of Daniel C. Jackling was received from the Attorney for the Estate. The Will provides for \$25,000 for the "Daniel Jackling Student Loan Fund" for worthy students in the Mining and Metallurgy Department of the University of Nevada.

#### 8. Loan Funds

Following a general discussion on loan funds, their value, terms and extent of use, Administration was asked to have a study made of the entire loan fund area and to submit a report to the Regents, with recommendations for putting them to greater use.

#### 9. Demers' Loan

Referring to Regents' action at the meeting of April 26, 1956, Mr. Hayden reported that a loan from the General Endowment Fund has been offered to Dr. Demers in the amount of \$1500, but that Dr. Demers has indicated he needs \$2000 and is thinking it over for a few days.

#### 10. Correspondence Course Contract

President Stout and Dean Wood reported on the proposed contract with the United States Armed Forces Institute whereby the University of Nevada would become one of the cooperating agencies to offer correspondence courses to members of the armed forces. Regular courses now offered by correspondence would be made available to members of the armed forces, and 1/2 the listed fee would be paid by the Armed Forces Institute, the other 1/2 by the individual taking the course.

Motion by Mr. Hardy carried unanimously that the President be authorized to sign the contract, which is effective July 1, 1956, for one year.

#### 11. Nuclear Engineering Course

President Stout presented the following report and recom-

mendation from the Academic Committee, and Dean Wood discussed it with the Regents:

That instruction in Nuclear Engineering begin with the 1956-57 academic year and that the program include the following 4 courses:

1. Atomic and Nuclear Physics, 3 credits, 2nd semester (Junior year).
2. Reactor Physics, 3 credits, 1st semester (Senior year).
3. Nuclear Engineering I, 3 credits, 1st semester (Senior year).
4. Nuclear Engineering II, 3 credits, 2nd semester (Senior year).

The first two courses can be taught by the present staff of the Department of Physics. The last two courses, which could not be offered until the academic year 1957-58, will require an additional staff member with special competencies, training and experience in the design, construction and operation of a nuclear reactor. He would need to have the security clearance required by the Atomic Energy Commission and be able to initiate and supervise research projects. The limited program proposed would require funds for the installation of a small experimental nuclear reactor. For the biennium 1957-59, the total cost of equipment and personnel for the proposed option in Nuclear Engineering, it is estimated, would be \$50,000. This estimate is based upon a careful analysis and study made during the past several months by a University committee of which Dr. Leifson is Chairman.

Prior to its consideration by the Academic Committee the proposal made by Dr. Leifson's study committee to recommend the establishment of a Nuclear Engineering program was reviewed and endorsed by the faculty of the College of Engineering. The proposed courses to be offered by the present Physics Department staff have been approved by the faculty of the College of Arts and Science.

Since every phase of American industry is affected by the development of nuclear power and since there is a rapidly increasing demand for men with a good background in nuclear science and the principles of reactor design and operation, and since the Federal Government is vitally concerned with the stimulation of interest

in the development by Universities of Nuclear Engineering instructional and research programs, the Academic Committee urges the most careful consideration of this proposal.

Motion by Mr. Hardy carried unanimously that the report be accepted and that Nuclear Engineering courses be instituted, in accord with the recommendation.

## 12. Traffic Code

Report was made by Mr. Poolman, who distributed mimeographed copies of the proposed Traffic Code, effective May 1956. Two uniformed patrolmen have been employed.

Motion by Mr. Grant carried unanimously that the Traffic Code dealing with parking on the Campus be approved.

Motion by Mr. Grant carried unanimously that the recommendation be approved that all fines and fees collected by the Comptroller's office under the newly adopted Traffic Code, be placed in a special fund to be used for improving and developing traffic and parking facilities, upon recommendation of the University Traffic Committee, with approval of the President, and of the Board of Regents in any major improvement projects.

## 13. Victory Heights

Letter from the wife of a graduating Senior was presented in which she requested permission for them to remain in Victory Heights Housing Project for one more year, in view of the special circumstances surrounding their case. (Mrs. Gerald Swanson)

Motion by Mr. Hardy carried unanimously that the action of the Regents (April 2, 1955) concerning occupancy of Victory Heights units be amended to continue housing provisions for present residents beyond the Bachelor's degree for a period of one year, to the extent that no more than 3 units will be filled during the coming school year.

## 14. Wier Property

Attention of the University Administration was called to the fact that the property on East Ninth Street, belonging to the Wier Estate, is to be sold. Investigation was made by Mr. Poolman as to its possible value to the University, and

the following report submitted:

The Wier property is immediately adjacent to the property now occupied by the Student Union building. This property was acquired by the University in 1933, under the following conditions: "To have and to hold unto said Grantee, its successors and assigns forever, to the use of said University of Nevada, for student business activities only; provided, however, that, in the event the Grantee or its successors shall sell said described lots, pieces and parcels of land, there shall be, by said Grantee, or its successors making such sale, paid to the Treasurer of the State of Nevada for the General Fund of said state, and sum of \$6500 from the proceeds of such sale, according to Section 2 of said Act of the Legislature hereinbefore mentioned."

The Wier property under consideration is a long, narrow piece of land being approximately 40 feet by 120 feet. It appears obvious therefore, that any use of such land would have to be made in conjunction with the property now owned by the University and subject to the aforementioned restrictions.

It is possible that the student body will want to move the bookstore from its present rented location into the Student Union building upon completion of the Jot Travis building. The land surrounding the old Student Union building, including the Wier property might then conveniently be used as a parking area for student vehicles, in conjunction with this bookstore use, or it is possible that the student body might be interested in using this land for a paid parking lot which would be operated by the ASUN.

Motion by Mr. Grant carried unanimously that consideration be postponed until more information is received from the Executrix of the Estate regarding appraisal and conditions of sale of the property.

By consensus, it was agreed that the conditional deed, referred to in the above report, be referred to the Attorney General for his opinion as to the University's position with regard to it.

## 15. Work Week

President Stout reported that at meeting of the Administra-

tive Committee, it was decided to recommend to the Board of Regents that the University clerical staff and Buildings and Grounds staff, so far as feasible, be placed on a 40-hour, 5-day week, during the Summer months, with skeleton staff on Saturday mornings, on a trial basis. President Stout requested authorization to put the plan into effect, starting June 11, 1956.

Motion by Mr. Grant carried unanimously that the President be given authority to put the plan into operation for the current Summer.

## 16. Candidates for Degrees

President Stout presented the list of candidates for degrees which had been approved by the Dean and the faculty of the College concerned, and by the Dean of the Graduate School in the case of Advanced Degrees, upon completion of work at the end of the 2nd semester of the current school year.

Motion by Dr. Lombardi carried unanimously that the candidates be approved and that they be granted the indicated degrees, as follows:

## 17. Sales Tax

Chairman Ross had received a request from an Association being formed to advocate continuing the sales tax asking that the Regents express its stand on the matter. After general discussion,

Motion by Mr. Hardy carried unanimously that the following resolution be adopted:

Believing that the Nevada sales and use tax is an equitable form of taxation and one whose existence is necessary to the welfare of the State, the Board of Regents of the University of Nevada goes on record as favoring its continuance, not only for the needs of education, but for the proper maintenance of the many functions of State government.

The meeting adjourned at 11:40 A.M. until the next regular meeting, unless a meeting is called by the Chairman.
