

DOE Lab Partnership 2005

First Name	Last Name	Institution	Title	Lab Partnership Personnel	Lab Name
George	Bebis	UNR	Spatio-Temporal Data Representation	Dr. Parvin	Lawrence Berkley National Lab
Wayne	Stolte	UNLV	Sub-femtosecond molecular dynamics using synchrotron radiation	Dr. Jinghua Guo	Lawrence Berkley National Lab
Jianting	Zhu	DRI	Estimation of Heterogeneous Random Hydraulic Parameters for the Hanford Site Using Bayesian Updating Method and Artificial Neural Network	Dr. Philip D. Meyer	Pacific Northwest National Laboratory
Michael	Pravica	UNLV	Single-crystal X-ray diffraction studies of energetic materials and lanthanide/actinide metals at variable temperatures	Dr. David Schiferl	Los Alamos National Laboratory

No lab partnerships were funded for 2005 due to reduced DOE EPSCoR funding
