Comptroller

Motion by Mr. Thompson carried unanimously that the claims be approved.

4. Veterinary Control Service

The 1957 Session of the Legislature separated the State Veterinary Control Service from the University of Nevada, where it had been a unit of the College of Agriculture. Since the Legislature did not provide for quarters for the Veterinary Control Service, and income from services of the Department will need to be accumulated before it can provide quarters, the Veterinary Control Service has requested the University to permit continued use of present quarters on the University Campus. In the discussion, it was agreed that it is not the policy of the University to provide quarters for other State agencies except on a temporary basis, because of the need for space for University activities, and that the University should continue this policy.

It was agreed by consensus that Mr. Vernon Metcalf, Executive Secretary of Nevada State Livestock Production Association, be asked by Mr. Bastian for information as to the length of time quarters would be needed, and for any other pertinent information, to be considered at the June 1 meeting of the Regents.

The Board recessed at 12 noon for luncheon at the Holiday Hotel.

5. Holmshaw Estate

President Stout discussed the Holmshaw Estate situation, and Regent Thompson reported on his conversation with Attorney Robinson concerning its status. In both instances, it was pointed out that early action on the part of the University would be beneficial to all parties concerned.

Motion by Dr. Anderson, seconded by Mr. Broadbent, carried unanimously that the Chairman of the Board of Regents appoint a committee of 3 to represent the Board in matters concerning the Holmshaw Estate.

(Appointed were: Bruce Thompson, Chairman, Roy Hardy, L. E. Lombardi.)

President Stout left the meeting.

6. Lloyd Smith Letter

The members of the Board of Regents had received individual letters from Lloyd Smith, a graduate of the University of Nevada, regarding the University of Nevada Physics Department. The matter was brought to the attention of the meeting.

Motion by Dr. Anderson carried unanimously that the letter be tabled for further study.

7. Citizens' Advisory Committees

Dr. Anderson offered the suggestion that ways should be found to encourage the faculty to conduct original research, produce original papers and to engage in other scholarly works.

Motion by Dr. Anderson, seconded by Mr. Broadbent, carried unanimously that a citizens committee be appointed to study

types of recognition which might be made to the faculty, such as prizes, sabbatical leaves and other rewards, and that the committee report to the President and the Board of Regents.

Motion by Dr. Anderson, seconded by Mr. Hardy, carried with the following vote, that citizens' committees be appointed, for each College, subject to the approval of the Board of Regents, with a member of the Board included on each committee, and that this matter be referred to President Stout and Dean Wood. Vote:

Thompson - "no", stating that he believed the action should wait until the Supreme Court determines the status of the 4 newly appointed members to the Board.

All others - "aye"

8. Stout Salary

The President's salary was discussed, and its relationship to other administrative salaries in the State.

Motion by Mr. Thompson, seconded by Mr. Elwell, carried unanimously that, in view of the difficulties encountered in obtaining money for salary increases, the President's salary not be increased at this time, and that the perquisites to the office remain the same.

9. Honorary Degree

A petition signed by staff and members of the Anaconda Company, Weed Heights, and an accompanying letter from Governor Russell, were presented in which request was made that the Board consider granting an honorary degree to Mr. A. E. Millar, General Manager of the Company.

Motion by Mr. Sawyer carried unanimously that the matter be tabled and that the Secretary write to Governor Russell informing him that the petition has been received and tabled.

The Board returned to open session in Room 205, Morrill Hall, at 2:30 P.M., with all present who were at the morning session.

Following receipt of a letter from Attorney General Dickerson, a telephone poll was taken of the Executive Committee which authorized Mr. Dickerson to proceed on the settlement which he recommended. Mr. Dickerson's letter stated that the present contestants have succeeded in objecting to the Will. He advised that if the University of Nevada agrees to the settlement proposed, "The amount which would eventually come to the State of Nevada would be around \$575,000 ... contingent upon Betty Roberts, one of the heirs, dying before the first trust became available and Don Momand dying before the second trust became available." Motion by Mr. Hardy, carried unanimously that the Regents adopt the following resolution:

BE IT RESOLVED, that the Board of Regents of the University of Nevada accepts the terms of Agreement with the Executors of the Will of Daniel C. Jackling

and authorizes the Chairman and the Secretary of the Board to sign the Agreement on behalf of the Board.

11. Residence Hall Rental Charge

President Stout called Dean Carlson into the meeting to explain a study which he had made on residence hall charges at other Universities, and to discuss the recommendation of the Fee Study Committee for increasing residence hall rentals. Reasons for increasing rentals were given as follows:
