Over time, the remediation rate for Millennium Scholars has remained substantially lower than the rate for those who did not receive the scholarship, reflecting their enhanced preparation for the academic rigor of college-level coursework.

The higher retention rates of Millennium students are evidence of the important role that the assurance of financial assistance and academic preparation play in the success of students in higher education.

Students receiving the Millennium Scholarship are more likely than non-Millennium students to graduate within 150 percent of expected time at NSHE universities.
